

### Our visit to One One Sky in Sangkhlaburi, Thailand

Dear supporters

In January 2026 CARA trustees Colin and Jan visited One Sky in Sangkhlaburi, Thailand. They arranged for us to visit some of the kinship and foster families caring for children who can no longer be with their parents. We made a short video of our visits which illustrates more than any words the conditions under which these people live.

Some of the villagers we met

Our first visit was to an 84 year old grandmother caring for her two grandchildren. On another visit we met a single mother caring for two special needs children and a younger child in something we could only describe as a temporary shelter. Another single mother we met was caring for two of our own children and fostering a third child while working at night in the rubber plantations with a head torch. Not surprisingly she was a bit sleepy. There are

many more cases like this but we'll let the video speak for itself.

The one sky team are doing an amazing job finding these people in remote villages and providing the support they need.

One Sky delivering training in Early Childhood Development

Your donations over the years have made a massive difference, giving the children an opportunity of an education which was not available to their parents. We have seen how this transforms their lives. Unfortunately, One Sky is facing a funding shortage and we need your continued support.

To donate please go to our web page [Donate | cara](#) or use the QR code

Best wishes

Colin & Jan
